

Week 2 – Technical Labs

Journal entries

All-student prompts

All students should reflect on and respond to the following prompt(s):

Prompt 3: *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

I have worked collaboratively in similar activities that prepared me for office work. For example I have had to work collaboratively with people who are lazy which presents a unique challenge. It is much easier working here at Red Hat because everyone participates and does their job.

Additional Wake County prompts

Students completing the internship program for Wake County schools must also complete the following prompts IN ADDITION to the 'All-student prompts'

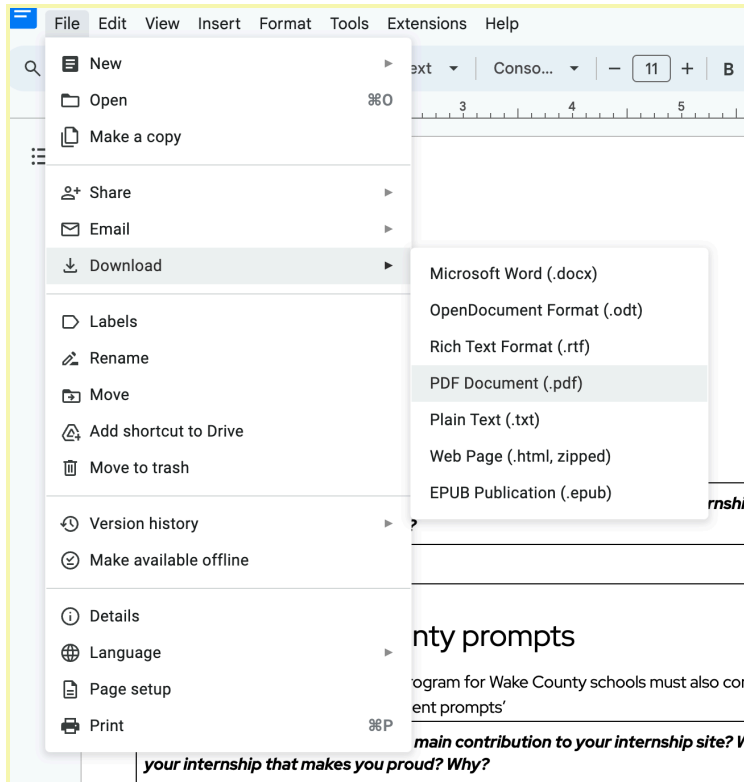

Prompt 4: *What do you feel is your main contribution to your internship site? What have you done at your internship that makes you proud? Why?*

I feel like I bring another point of view to the conversation. I always attempt to lighten the mood while in conversation. I always try to contribute to my work and help others with theirs. I hope that I can continue to make a difference here at Red Hat

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Week 2 Journal Entries**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in our [shared repo](#).
