

Week 1 – Career Development

Journal entries

All-student prompts

All students should reflect on and respond to the following prompt(s):

Prompt 1: *Describe your orientation of the workplace and include the following: when did it occur, who did you meet with, and what are three key things you learned during the orientation?*

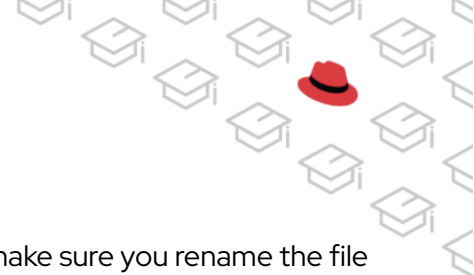

My orientation this week consisted of many different presentations and a tour. We met so many people whose names I can't remember. I learned how RedHat makes their money, I learned about their thriving culture, and what to expect from our internship.

Prompt 2: *Define the purpose of the business/organization – what they do, structure, who are their customers, etc. What is your job description – what will you be doing, who will you work with, where do you fit in, etc.?*

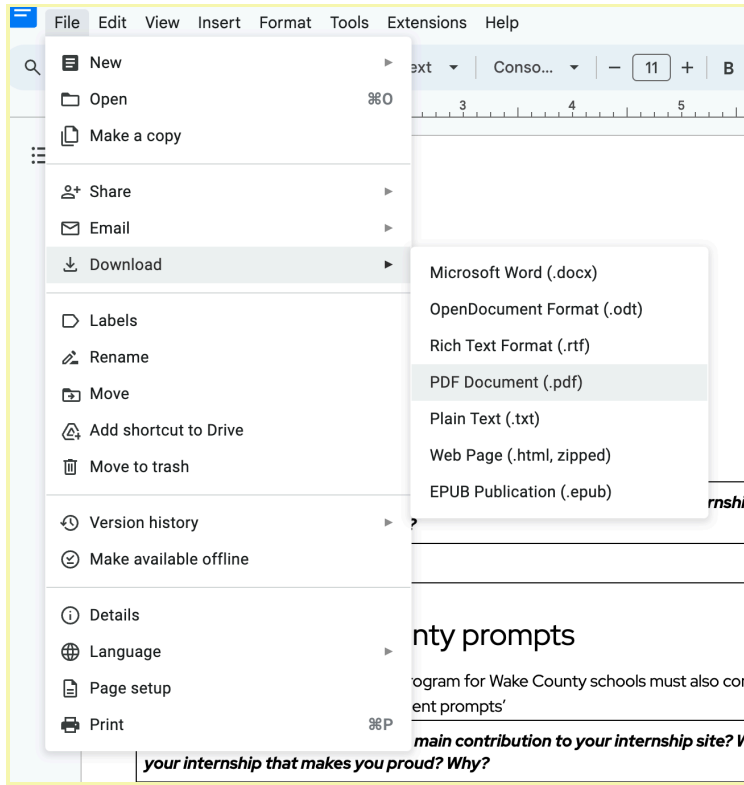

RedHat is a platform company which sells services and subscriptions based around their open-source software. Their customers are any companies that need/want customized software. My job is "HS intern" which will consist of learning and job shadowing in each department. I work alongside five other interns while we traverse the company.

Export + contribute your reflection

Stop here! You will complete the steps below during your Week 2 GitHub lab

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Week 1 Journal Entries**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#).
