

Week 3 – All About Data

Journal entries

All-student prompts

All students should reflect on and respond to the following prompt(s):

Prompt 5: *How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.*

I think the internship program is nice but I will say that the past few job shadowing sessions haven't been the best because they are all about presentation and not as interactive as I'd hoped it to be. The only person that has really given us a good job shadow is Troy McNair because he showed us around the building, streaming studios, and the annex where he sometimes works and creates videos/podcasts.

Prompt 6: *How has this experience affected or changed your career/college plans?*

I entered this program thinking that I was going to major in computer engineering but now that we are towards the end of the program. I am thinking about majoring in Marketing and UI Design and I have also gotten a retro perspective on other college interns experiences. They went into college thinking that they were going to major in one thing but later on majored in something else. This helps me knowing that even if I decide to major in this and it's not for me, that I will still have a chance to change majors and the end result can still have me working at a top company.

Additional Wake County prompts

Students completing the internship program for Wake County schools must also complete the following prompts IN ADDITION to the 'All-student prompts'

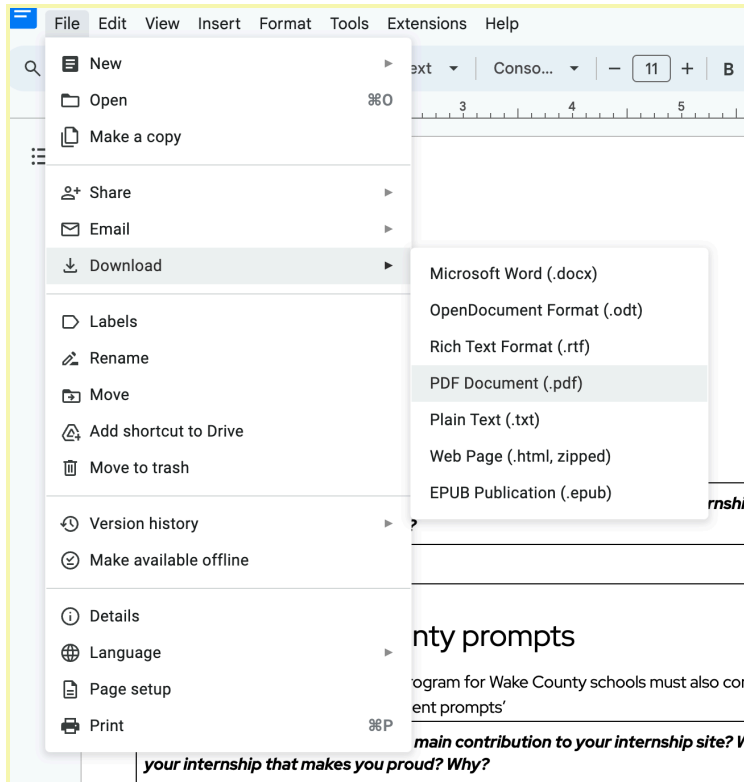

Prompt 7: *How have your duties changed since you first started? Have you been given more responsibility?*

I think my duties here are similar to when I would be in school, I am here to learn and give presentations while also being assigned some minor assignments. I don't think I am given much responsibility while I am here, the work is small and easy to complete, I wish we had a little more on our plate and were given some real work that a highschooler could complete.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Week 3 Journal Entries**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in our [shared repo](#).
