Week 2 – Technical Labs

Journal entries

All-student prompts

All students should reflect on and respond to the following prompt(s):

*Prompt 3: **How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?***

I think my classroom experience somewhat prepared me for the internship. I wish they taught me how to network with people or taught me how to create an elevator speech on the spot when meeting other people. Some of the learning experiences I gained from school were leadership roles and stepping out of my comfort zone to participate in activities or clubs that I would never have thought of stepping into.

Additional Wake County prompts

Students completing the internship program for Wake County schools must also complete the following prompts IN ADDITION to the 'All-student prompts'
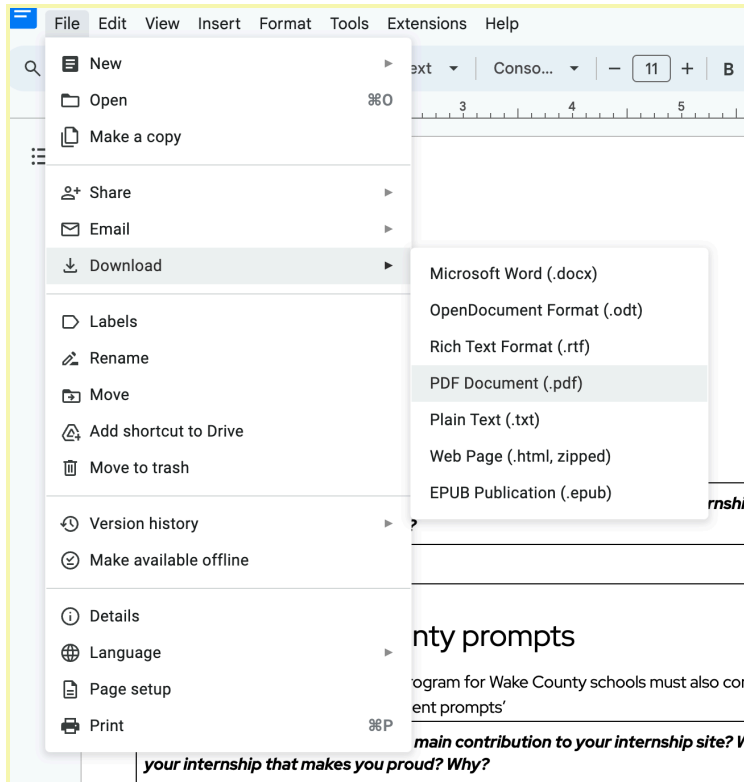

*Prompt 4: **What do you feel is your main contribution to your internship site? What have you done at your internship that makes you proud? Why?***

I have contributed to the internship by sharing my knowledge with the program and getting to know my new co-workers and leaders. I have enjoyed the job shadowing sessions and getting to know everyone's positions. I think that by the end of the program I will be able to narrow down my options as to what career I want to pursue and follow the steps necessary to obtain that career in my last year of highschool and going into college.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format `[Firstname Lastname] Week 2 Journal Entries`

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in our shared repo.
